

GOLD STANDARD MULTIMEDIA INC.

**The Gold Standard in
Innovative Medical
Education Software**

**Used in Over 90% of U.S. Medical Schools and
By Thousands of Healthcare Professionals Throughout the World**

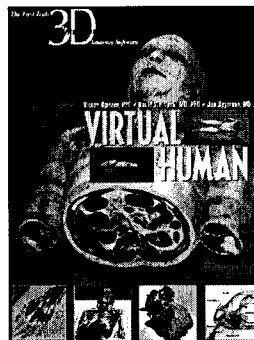

"In medical circles, 'gold standard' means that by which everything else is measured. And that's exactly what Gold Standard Multimedia wants to be."

*Cloutier, M.M.:
"The Body of Knowledge",
Florida's Business and Technology*

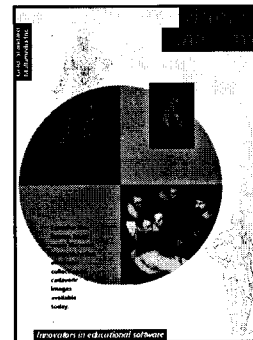

Gold Standard Multimedia is a publisher of innovative medical education and reference software and online services. Acclaimed for their unique interactive interfaces, value-added features, and informational content, these multimedia programs are designed to provide healthcare professionals and educators with complete and clinically relevant reference guides and teaching tools. A selection of the programs offer Continuing Education credit, and data licensing opportunities are also available. Gold Standard Multimedia's commitment to quality can be found in the authenticity, comprehensive, and useful presentation of the information in these products.

We invite you to try any of these programs yourself, absolutely risk-free. For a complimentary demo:

IAMSE CORPORATE SPONSORSHIP BENEFITS

As an academic organization, the International Association of Medical Science Educators (IAMSE) offers membership to all individual faculty members and staff of medical universities, schools, and health professions related institutions worldwide. Graduate and medical students, postdoctoral fellows, medical house officers, and residents are also invited to become full participating members of IAMSE at a special discounted rate.

As medical educators on the forefront of both excellence and innovation, we also share a special relationship with those in the corporate world who publish the textbooks, computer software, anatomical models, and other educational tools that help us in our vital task of training future generations of physicians. In-

deed, many of us have actually created or authored these educational tools in collaboration with our corporate colleagues.

It is therefore with great pleasure that IAMSE now offers a means for corporate entities to become formally involved with our organization by becoming Annual Corporate Sponsors. We cordially invite all companies concerned with the production of educational tools or products to participate with us in support of medical faculty throughout the world. For further information, please contact Ms. Julie Hewett, IAMSE Business Manager, at TEL: 304-733-1270, FAX: 304-733-3549, or E-MAIL: <Julie@IAMSE.org>.

PLATINUM LEVEL – \$4,500

- Five copies of the *Basic Science Educator*
- Company listing as Platinum Corporate Sponsor in the *Basic Science Educator*
- Company listing as Platinum Corporate Sponsor on the IAMSE Website (with hyperlink)
- Two free registration fees at the IAMSE Conference (\$700-800 value)
- Free Exhibit privileges at the IAMSE Conference (\$1,000 value)
- One free use of IAMSE mailing list
- Two free full-page advertisements in the *Basic Science Educator* (\$800 value)
- 25% discount on all advertising in the *Basic Science Educator*
- Member rates on all IAMSE products

GOLD LEVEL – \$3,000

- Four copies of the *Basic Science Educator*
- Company listing as Gold Corporate Sponsor in the *Basic Science Educator*
- Company listing as Gold Corporate Sponsor on the IAMSE Website (with hyperlink)
- One free registration at the IAMSE Conference with payment of exhibit fee (\$350-400 value)
- 80% discount on Exhibit Fees at the IAMSE Conference (\$800 value)
- 50% discount on one-time use of IAMSE mailing list
- One free half-page advertisement in the *Basic Science Educator* (\$250 value)
- 25% discount on all advertising in the *Basic Science Educator*
- Member rates on all IAMSE products

SILVER LEVEL – \$1,500

- Three copies of the *Basic Science Educator*
- Company listing as Silver Corporate Sponsor in the *Basic Science Educator*
- Company listing as Silver Corporate Sponsor on the IAMSE Website (without hyperlink)
- Up to two \$100 discounts on registration fees at the IAMSE Conference with payment of exhibit fee
- 25% discount on Exhibit Fees at the IAMSE Conference (\$250 value)
- 25% discount on one-time use of IAMSE mailing list
- One free quarter-page advertisement in the *Basic Science Educator* (\$150 value)

BRONZE LEVEL – \$750

- Two copies of the *Basic Science Educator*
- Company listing as Bronze Corporate Sponsor in the *Basic Science Educator*
- Company listing as Bronze Corporate Sponsor on the IAMSE Website (without hyperlink)
- One \$100 discount on registration at the IAMSE Conference with payment of exhibit fee
- One free eighth-page advertisement in the *Basic Science Educator* (\$100 value)

A complete package of teaching resources for tomorrow's doctors!

McMINN'S COLOUR ATLAS OF HUMAN ANATOMY

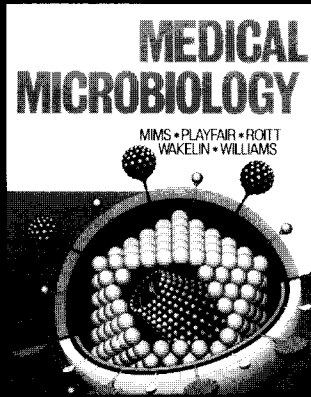

P H Abrahams • R T Hutchings • S C Marks Jr

4TH EDITION

The world's premier photographic anatomy atlas presents crystal-clear photographs of dissections of all areas of the human body. Clinical notes are integrated throughout the text for thorough and clinically relevant understanding of anatomy, its normal structure and function, and how these are related to disease processes.

Peter H Abrahams,
Ralph T Hutchings &
Sandy C Marks Jr.

The second edition of this outstanding text takes an approach that is unique amongst microbiology textbooks, keeping in line with modern curricula. It gives a systems-based treatment, looking at the microbiology of the agents causing disease and the diseases affecting organ systems. Over 450 color illustrations explain difficult concepts clearly.

Cedric Mims, John Playfair,
Ivan Roitt, Derek Wakelin &
Rosamund Williams

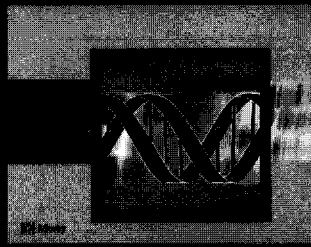

Mosby is proud to present the finest collection of histologic images ever published for medical students. Every single histology and electron micrograph has been painstakingly prepared by the author to provide your students with images that reflect exactly the images they'll see under the microscope. Clinical correlations are integrated throughout the text.

Jeffrey B Kerr

Medical Genetics

Jorde • Carey • Bamshad • White

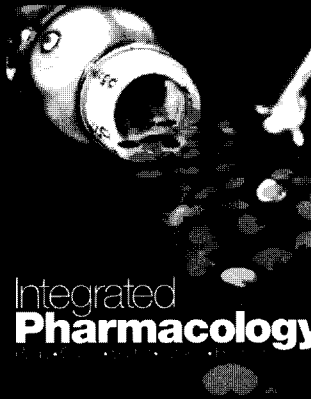

This text provides students with a balanced, comprehensive introduction to genetics and clinical practice. New to this edition is an entire chapter on biochemistry and expanded coverage of genetic counseling and gene therapy. There are more of the popular clinical commentary boxes that emphasize the link between genetic principles and clinical practice.

Lynn B Jorde, John C Carey,
Michael Bamshad &
Raymond L White

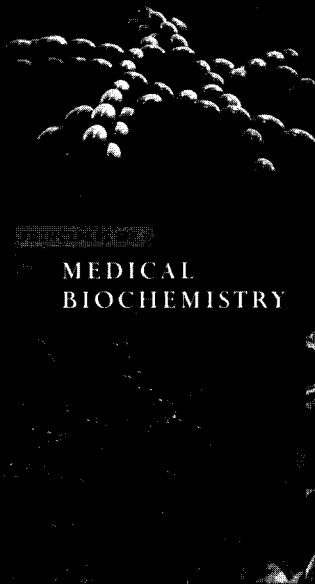

The new edition of this best-selling textbook combines concise text with full-color illustrations. In addition to the basic science, this text considers immunology in relation to histology and pathology. Clinical aspects of immunology are illustrated with color photographs. Immunology Interactive CD-ROM 2.0 and Case Studies supplement this major text.

Ivan Roitt, Jonathan Brostoff &
David Male

Here's the textbook to provide the next generation of healthcare professionals with a better means of understanding how the science of pharmacology relates to health, disease, and therapeutics. This innovative text presents drugs within the context of the diseases that they are used to treat - all within a body systems approach.

Clive P Page, Michael Curtis,
Morley C Sutter,
Michael JA Walker &
Brian B Hoffman

Throughout this text, aspects of human biochemistry are presented in the context of their function rather than as abstract chemical entities. These are followed by descriptions of how functions are disrupted in the presence of disease. Crisp illustrations depict important mechanisms as well as key chemical structures.

Gerhard Meisenberg &
William H Simmons

Mosby also gives you interactive learning!
