

Strategies for Selecting a Learning Management System: An Experience at the UCLA David Geffen School of Medicine

Sara Kim, PhD, Director, Associate Professor
Instructional Design and Technology Unit, UCLA David Geffen School of Medicine

Katherine Wigan, BS, MBA, Senior Computer Programmer
Instructional Design and Technology Unit, UCLA David Geffen School of Medicine

March 6, 2012
International Association of Medical Science Educators

Introduction to Webinar Session

- Learning Management Systems (LMS) serve as a backbone in medical schools for curriculum delivery, exam administration, and accreditation requirements.
- LMS market offers 4 solutions: Commercial, Open-Source, Open-Source/Commercial, and Homegrown Products.
- Today's webinar presents the ongoing experiences at the UCLA David Geffen School of Medicine in our LMS review processes.

Guiding Principles of LMS Selection

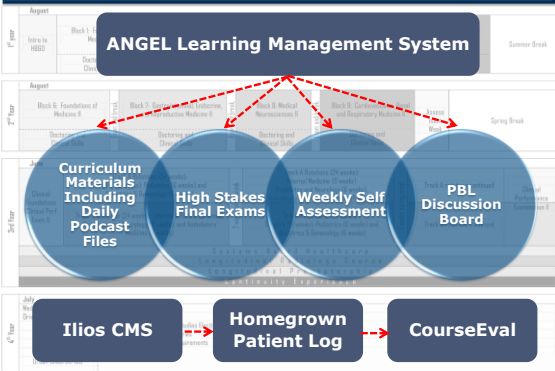

Outline of Webinar Session

- UCLA David Geffen School of Medicine: Curriculum Context**
- Act 1: People**
Needs Assessment, Leadership Buy In, Stakeholder Identification
- Act 2: Technology**
LMS Core Features, Available LMS Solutions for Review
- Act 3: Process**
LMS Review, Consensus Building, Follow up Activities
- Wrap Up: Lessons Learned**

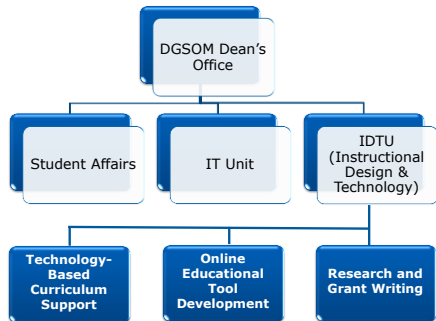

UCLA David Geffen School of Medicine Curriculum Map

Year	August	September	October	November	December	January	February	March	April	May	June	July	August	
1 st Year	Block 1: Foundations of Medicine I Learning and Clinical Skills	Block 2: Foundations of Medicine II Learning and Clinical Skills	Block 3: Cardiovascular, Renal and Respiratory Medicine I Learning and Clinical Skills	Block 4: Gastrointestinal, Endocrine and Reproductive Medicine I Learning and Clinical Skills	Block 5: Musculoskeletal Medicine Learning and Clinical Skills	Block 6: Medical Neuroscience I Learning and Clinical Skills	Summer Break							
2 nd Year	Block 6: Foundations of Medicine II Learning and Clinical Skills	Block 7: Environmental, Infectious and Reproductive Medicine II Learning and Clinical Skills	Block 8: Medical Neuroscience II Learning and Clinical Skills	Block 9: Cardiovascular, Renal and Respiratory Medicine II Learning and Clinical Skills	Assess ment Week	Spring Break								
3 rd Year	Clinical Foundations (Clinical Elective Core II)	Track A Rotations (24 weeks) Surgery (12 weeks) Pediatrics (12 weeks) and Obstetrics (12 weeks)	Track B Rotations (24 weeks) Internal Medicine (12 weeks) Psychiatry and Neurology (12 weeks) and Ambulatory Medicine (12 weeks)	Track C Rotations (24 weeks) Surgery (12 weeks) Pediatrics (12 weeks) and Obstetrics (12 weeks)	Track D Rotations (24 weeks) Internal Medicine (12 weeks) Psychiatry and Neurology (12 weeks)	Track E rotations continued	Clinical Performance Competencies II							
4 th Year	Systems Based Rotations Longitudinal Preceptorship Continuity Experience													
5 th Year	Medical History Diseases: Infectious Medicine Applied Anatomy Acute Care Primary Care Geriatric Assessment Advanced Studies (Business Program) Senior Series Clinical Requirements Honoring

Leadership Buy In via Strategic Plan

Strategic Plan for Replacement of DGSOM Learning Management System: 2011 - 2015

A. RATIONALE

The ANGEL learning management system that served as a backbone to the DGSOM curriculum over the past decade will no longer be available as of spring, 2015. The four-year time span provides us with an excellent opportunity to envision the 21st century LMS that will support our innovative and evolving medical school curriculum. This document describes the scope of the review and decision-making processes.

B. PROJECT LEAD AND MANAGEMENT TEAM

Project Lead: Zhen Gu, Sara Kim, IDTU, DGSOM, Mary Tawfall, School of Dentistry
 Project Manager: Katherine Wigan, IDTU, DGSOM, OpenProj software program

Leadership Buy In via Strategic Plan

C. STAKEHOLDER GROUPS

The review and decision-making process will be guided by opinions and feedback from a wide group of DGSOM stakeholders including faculty, staff, and students as well as external colleagues with experiences in LMS approaches involving commercial products and open-source technologies. The following four stakeholder groups are identified:

a. Decision Makers:

The decision makers will consist of DGSOM leadership team responsible for curriculum implementation and oversight.

b. Advisory Group to Decision Makers:

Members will consist of faculty, staff members, and students from diverse disciplines, blocks and training years are invited to serve on the group. The group will meet on a monthly basis during March, 2011 to early 2012 for reviewing LMS options and making a recommendation to the decision makers.

c. External Liaisons:

A wider group of external colleagues who share similar LMS needs will be invited to participate in the review process.

D. CONSULTANTS

Selected individuals are invited as consultants on the review process.

Leadership Buy In via Strategic Plan

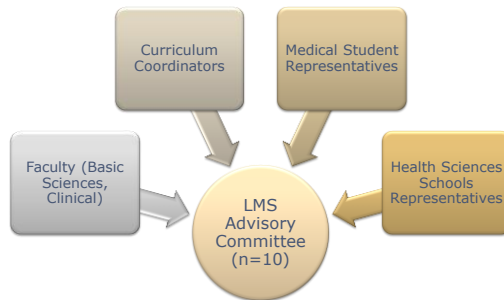

F. REVIEW PROCESS OUTPUT

At the end of the review process, the Advisory Group will submit a report to the decision makers that include the recommended LMS solution, rationale, and required resources for implementation.

G. PRELIMINARY TIMELINE

Year	Main Activity
2011-2012	1. Data Collection: Focus Groups, Survey of Medical and Dental School Students, Interviews with other schools using a variety of LSM technologies 2. Advisory Group: Monthly meetings beginning in March, 2011 3. Decision Recommendation: Advisory Group to make recommendations on the best LMS to decision makers by March, 2012
2012-2015	1. Option 1: If we decide to go with a commercial solution, this 2 year period will be devoted to developing a plan for migrating ANGEL content to the new system and customizing the system for DGSOM's needs 2. Option 2: If we choose an open-source environment, this 2 year period will be devoted to creating, testing, and implementing a customized system.
2014-2015	The last year before ANGEL expiration is devoted to migrating ANGEL content depending on the final decision: 1. Migration to the new commercial platform (Option 1) 2. Additional testing and debugging for phased in implementation (Option 2)

Identifying Stakeholders

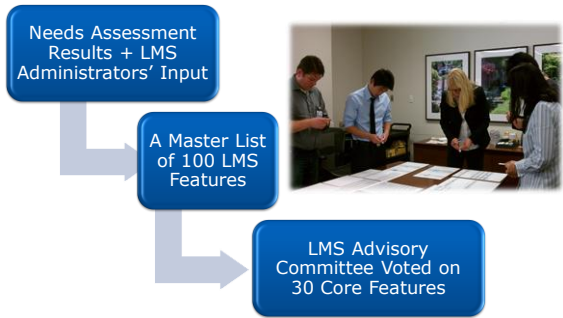

Guiding Principles of LMS Selection

LMS Review Process Act 2: Technology

- 1 Identifying Core LMS Features
- 2 Identifying LMS Options

Identifying Core LMS Features

Identifying LMS Options

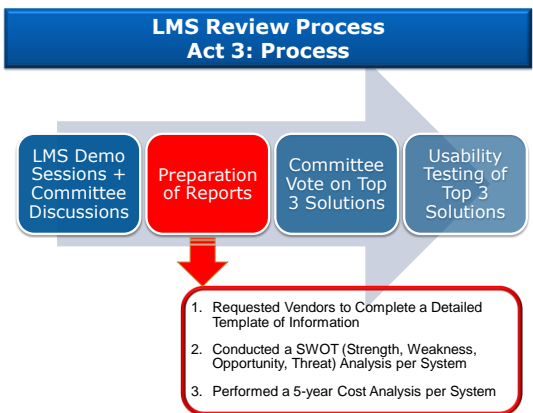

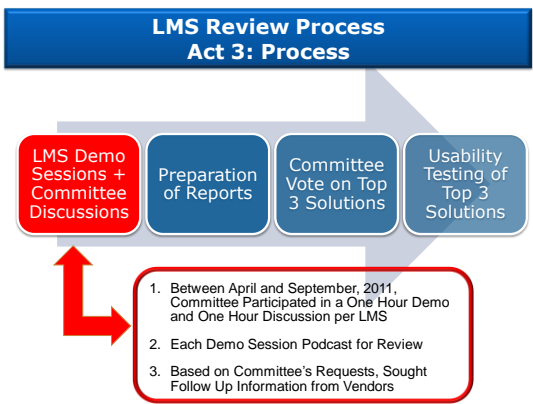

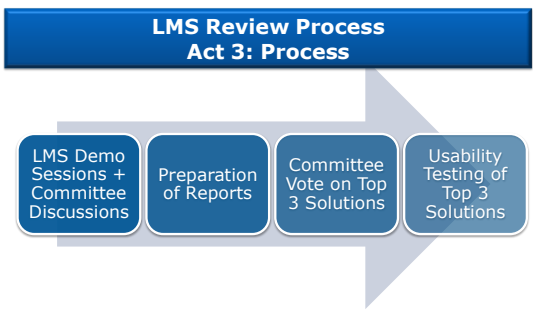

Identifying LMS Options

	Pros	Cons
Commercial	<ul style="list-style-type: none"> •Dedicated 3rd party support •Requires less in-house programming resources and technical expertise 	<ul style="list-style-type: none"> •Possibility of getting bought out •Per user license fee model, with no control over fee increases •Extra charges for system customizations/integrations
Open Source	<ul style="list-style-type: none"> •Unlimited free licenses •Freedom of customization and implementation •Availability of user community 	<ul style="list-style-type: none"> •No dedicated 3rd party support •Requires in-house programming resources and technical expertise

Cost Analysis - Learning Management System 1

The following assumptions are made:

- Only one trainer will be needed and trainer's travel and per diem expenses not to exceed \$1500
- User license fee does not include multi year agreements discount
- Increase in fees after the first year is approximately 5%

Cost Description	2013	2014	2015	2016	2017	2018
Acquisition cost						
User license fee for 2000 active users	\$30,000.00	\$31,500.00	\$33,075.00	\$34,728.75	\$36,465.19	\$38,288.45
Implementation cost						
Installation fee	\$1,500.00					
System integration with SIS	\$1,500.00					
SIS integration (custom integration)	\$5,000.00	\$500.00	\$500.00	\$500.00	\$500.00	\$500.00
Expertise installation fee	\$5,500.00					
Expertise	\$15,000.00	\$15,000.00	\$15,000.00	\$15,000.00	\$15,000.00	\$15,000.00
Training cost						
User training fees (1 day)	\$7,500.00					
Trainer travel fees/expenses	\$1,500.00					
Maintenance and Support						
SIS Integration Maintenance	\$5,000.00	\$5,000.00	\$5,000.00	\$5,000.00	\$5,000.00	\$5,000.00
Standard user support fees	\$1,850.00	\$1,850.00	\$1,850.00	\$1,850.00	\$1,850.00	\$1,850.00
Optional						
Hosting fee	\$15,000.00	\$15,000.00	\$15,000.00	\$15,000.00	\$15,000.00	\$15,000.00
Test environment hosting & maintenance	\$2,500.00					
Disaster Recovery (4 hours Recovery Point Obj; 72 hr Recovery Time Obj)	\$3,000.00	\$9,500.00	\$9,500.00	\$9,500.00	\$9,500.00	\$9,500.00
Total Cost (self-hosted)	\$77,850.00	\$95,850.00	\$97,425.00	\$99,078.75	\$100,815.19	\$102,638.45
Total Cost (self-hosted w/ options)	\$92,850.00	\$105,350.00	\$106,925.00	\$108,578.75	\$110,315.19	\$112,138.45
Total cost (hosted)	\$93,850.00	\$106,850.00	\$107,425.00	\$109,078.75	\$110,815.19	\$112,638.45
Total cost (hosted w/ options)	\$107,850.00	\$120,350.00	\$121,925.00	\$123,578.75	\$125,315.19	\$127,138.45
