### Strategies for Launching a Successful IPE Program

Amy V. Blue, PhD Assistant Provost for Education Director, Creating Collaborative Care Professor, Family Medicine

Creating Collaborative Care

Changing What's Possible

#### **Session Objectives**

- Discuss strategies for interprofessional • education (IPE) program implementation
- Describe IPE curricular activities

Changing What's Possible

- · Identify how IPE can be included in the extracurricular environment
- · Discuss faculty development approaches
- · Identify IP student assessment and program evaluation approaches

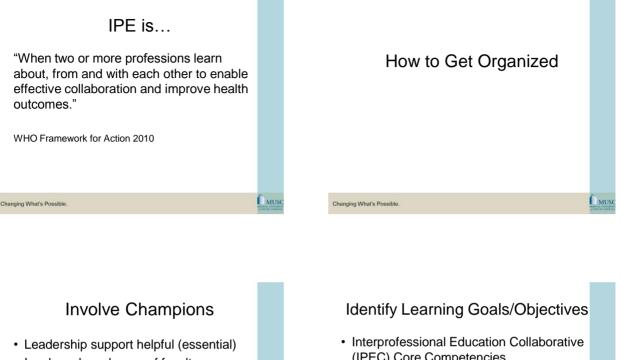

Take Home Points		Agenda	
<ul> <li>Start small and expand</li> <li>Approach with a continuous improvement philosophy</li> <li>Look for available resources</li> <li>Model what we preach – be collaborative and interprofessional!</li> </ul>		<ul> <li>Institutional background and IPE definition</li> <li>The process of "how to" get organized</li> <li>Thoughts and examples of "what to" organize</li> <li>Summary</li> </ul>

MUSC

Institutional Background and **IPE** Definition

Changing What's Possible

- Involve a broad array of faculty
- Involve students
- · Ensure that working groups are interprofessional in composition

Interested in interprofessional education? The MUSC Creating Collaborative Care (C3) initiative seeks faculty, staff and students interested in serving on C3 associated subcommittees: Curricular, Extracurricular, Teaching Scholars Academy, and Clinical Effectiveness and Patient Safety.

Changing What's Possible

(IPEC) Core Competencies - Values/Ethics for Interprofessional Practice

- Roles/Responsibilities
- Interprofessional Collaboration
- Teams and Teamwork

Changing What's Possible

## Core Competencies

- Values/Ethics
  - Place the interests of patients and populations at the center of interprofessional health care delivery.
  - Develop a trusting relationship with patients, families, and other team members.

#### Roles/Responsibilities

- Explain the roles and responsibilities of other care providers and how the team works to provide care
- Recognize one's limitations in skills, knowledge, and abilities

Changing What's Possible

MUSC

MUSC

#### **Core Competencies**

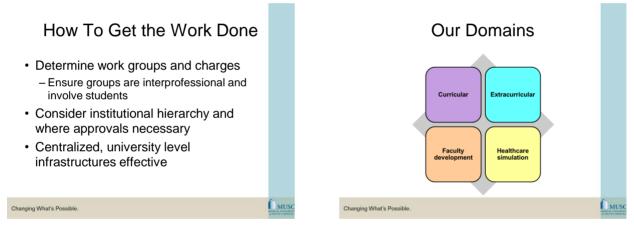

- Interprofessional Communication
  - Listen actively, and encourage ideas and opinions of other team members
  - Use respectful language appropriate for a given difficult situation, crucial conversation, or interprofessional conflict
- Teams and Teamwork
  - Describe the process of team development and the roles and practices of effective teams
  - Apply leadership principles that support collaborative practice and team effectiveness

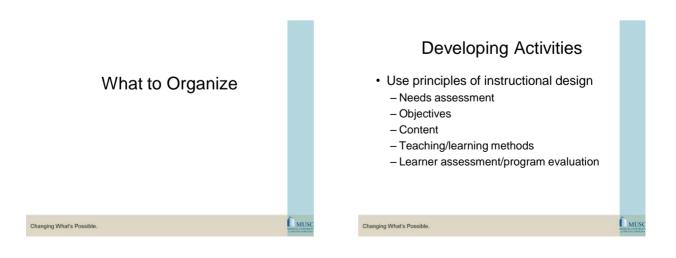

Changing What's Possible

MUS

MUS

#### Additional Considerations Advice: Start small, improve upon, and Co-curricular vs. academic credit expand! · Elective vs. required · Short duration vs. longer duration · Focus on all vs. subsets of learners · Classroom vs. clinic vs. community setting MUSC MUSC Changing What's Possible Changing What's Possible Co-Curricular Example Activities for interested students Presidential Scholars Program - Year-long program · Do not carry academic credit - Bi-monthly evening meetings · Participation can be formally recognized - Community project work - Recognized at graduation MUSC MUSC Changing What's Possible Changing What's Possible

## Other Examples

- Student-run clinics
  - CARES clinic
- Community service activities
  - Junior Doctors of Health Program
  - Community Health Fairs

Changing What's Possible

MUSC

#### Simulation Interprofessional Day · Simulated Interprofessional Rounding Introduce IP concepts Experience (SIRE) to all 1st year · Medical, Pharmacy, PA students students; reinforce manage an "acute patient" with 2<sup>nd</sup> year students · Half day event; classes cancelled · Presentation and small group sessions MUS MUS Changing What's Possible Changing What's Possible

Longer Duration

Interprofessional Service Learning Project (ISLP)

- · Over a three week period
- · During required clinical rotations
- Didactic and project work

Changing What's Possible.

# For a Semester

- Required course
- IP 710 "Transforming Health Care for the Future"
- · Online and face to face sessions
- IP group project work analyzing fictional sentinel event

```
Changing What's Possible
```

**Clinical Settings** 

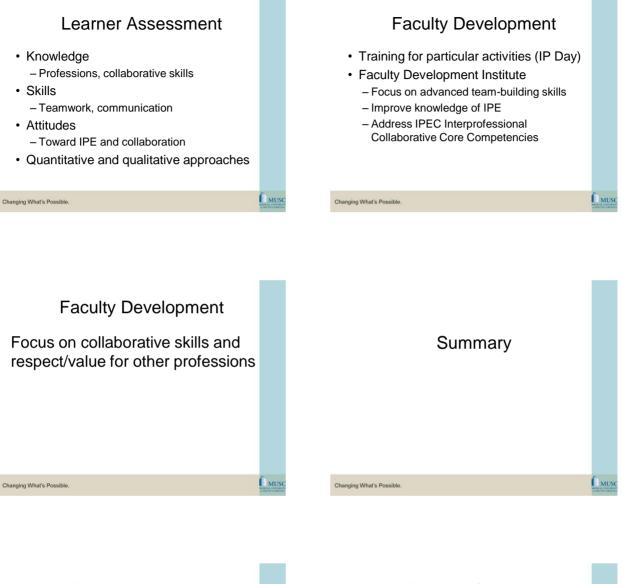

- Provide interprofessional clinical environment
- · Require students to:
  - Interact with another professional to improve patient care
  - Document and reflect on interaction

# The Scheduling Issue

- If calendars don't align, work around and within limitations
  - ISLP in 3 week common timeframe
  - IP Day on least disruptive day of week
  - IP 710 initially all online, added in-class sessions at noon

MUSC

MUS

#### Take Home Points

- · Start small and expand
- Approach with a continuous improvement philosophy
- · Look for available resources
- Model what we preach be collaborative and interprofessional!
