A Note from 2023 Program Chair, Amber Heck

Hola and Bienvenidos,

On behalf of the International Association of Medical Science Educators (IAMSE) and as Chair of the Annual Program Committee, I am pleased to welcome you to the 27th Annual Conference in Cancun, Mexico. With its white sand beaches and turquoise waters, Cancun is the perfect location for the IAMSE Annual Conference. Though it is often known as a resort destination, Cancun is a paradise for nature and history lovers. Adventure seekers can visit prominent archaeological sites and museums, enjoy a trip on a catamaran to nearby Isla Mujeres, or snorkel at the Underwater Museum of Art. In Cancun, you will find endless things to do, making it an ideal spot to work hard and play even harder.

Each year, the IAMSE Annual Conference brings colleagues and friends together for an opportunity to connect with and learn from one another. It's designed to meet the needs of health professions educators seeking exceptional training, opportunities for collaboration and an international network of global peers from over 25 countries. The 2023 theme is "Teaching & Learning in Health Sciences: Linking Current Theory to Practice." This highlights IAMSE's mission to advance health profession education through teacher development and to ensure that the teaching and learning in the health professions continues to be firmly grounded in foundational sciences and the best practices of teaching.

Each of them well known for their individual expertise in teaching and learning, our plenary speakers will both inform and challenge current perspectives. They are Michelle Daniel (University of California-San Diego, USA), Kara Caruthers (Meharry Medical College, USA), Anique de Bruin (Maastricht University, The Netherlands) and Ricardo León-Bórquez (Universidad Autónoma de Guadalajara, Mexico and the World Federation for Medical Education). In addition to the plenary presentations, you will enjoy engaging Pre-Conference Courses and focus sessions and keep abreast of the field through effective poster and oral presentations. We are thrilled to welcome many first-time delegates from Mexico and through the support of our partners at the Mexican Association of Faculties and Schools of Medicine (AMFEM), excited to provide dedicated Spanish-language sessions during the annual conference.

Together with the 2023 Program Planning Committee, IAMSE Admin Team, Board of Directors and Executive Committee, we welcome you to the 27th Annual Conference of IAMSE. Over the next three days, we hope that you make meaningful connections with your IAMSE colleagues and participate in conversations that lead to innovation in the way you teach and learn.

Sincerely,
Amber J. Heck, PhD
Chair, IAMSE 2023 Program Committee

About IAMSE

We, in IAMSE, believe that science must continue to be the basis for the practice of modern healthcare. To successfully provide comprehensive care, health professionals must be able to combine compassion, understanding and communication skills with a readily accessible knowledge base. We believe that all health science educators have an obligation to their students, their profession and to themselves to model the highest standards of professionalism. And, we believe in equality, embracing the diversity of all colleagues regardless of cultural, geographic or political boundaries.

The mission of the International Association of Medical Science Educators is to advance health professions education through teacher development and to ensure that the teaching and learning of medical science continues to be firmly grounded in foundational sciences and the best practices of teaching.

We strive to achieve this by:

- Providing multidisciplinary, interprofessional and cross-cultural forums for discussion of issues affecting medical science education and educators.
- Designing and evaluating current and innovative means to teach the sciences fundamental to health professions and sharing the results for the development of all health professions educators and;
- Serving as an international voice to enhance appreciation of the crucial role of medical sciences in health and health care.

2023 IAMSE Educator Awards

2023 Edward Patrick Finnerty Lifetime Achievement Award Recipient
Bruce Newton, PhD
This award is bestowed upon an individual member who has demonstrated a sustained involvement in and commitment to the advancement of the International Association of Medical Science Educators through their many types of service to the organization at the highest levels of performance. The special nature of this award makes it one for which a member may not apply, but rather, it represents the highest level of recognition that the organization, through selection by its Board of Directors, can provide to a most worthy individual whose work on behalf of IAMSE has shown a consistent history of distinguished accomplishments.

2023 Distinguished Career Award for Excellence in Teaching and Educational Scholarship Recipient
Amina Sadik, MS, PhD, MSMEdL
This award recognizes an IAMSE member who has a distinguished record of educational scholarship, including educational research and dissemination of scholarly approaches to teaching and education. Candidates should be Professor, Associate Professor, or equivalent rank, or have demonstrated greater than 10 years of educational scholarship. Additionally, candidates must have a significant record of engagement within IAMSE. Award recipients are selected based on the impact, ingenuity and longevity of educational scholarship and their records of publications, presentations and other forms of dissemination of educational scholarship.

2023 Early Career Award for Excellence in Teaching and Innovation Recipient
Stefanie Attardi, PhD
This award honors an IAMSE member who has made significant innovations to the field in the short time they have focused their careers toward enhancing teaching, learning and assessment. Candidates for this award will be Assistant Professor or equivalent rank, or have demonstrated less than 10 years of educational scholarship. An award recipient will have a record of excellence in teaching at their institution and possess a record of engagement within IAMSE. It is recognized that, while the successful nominee will have a proven track record of innovating and helping advance the art of teaching, they may not yet have achieved significant accomplishments in scholarship.
