

Medical Science Educator

Editor-in-Chief: David Harris, PhD

Published in collaboration with Springer, this journal publishes articles which focus on teaching the sciences that are fundamental to modern medicine and health. Coverage includes basic science education, clinical teaching and the incorporation of modern educational technologies.

- The Journal is an official peer-reviewed publication of the International Association of Medical Science Educators (IAMSE).
- The Journal presents the latest scholarly activities, opinions and resources in the modern medical science education.
- the Journal covers basic science education, clinical teaching and incorporation of new educational technologies.
- The Journal offers all who teach in healthcare the most current information to succeed in their task by publishing scholarly activities, opinions and resources.
- The Journal provides the readership a better understanding of teaching and learning techniques in order to advance medical science education.

Authors are invited to submit manuscripts that take a variety of formats, including original research manuscripts, short communications, innovations, monographs and commentaries. On the homepage of Medical Science Educator, you can:

- Read selected articles for free.
- Sign up for our Table of Contents Alerts.
- Get to know the complete Editorial Board.
- Find submission information and Instructions for Authors.
